# CHAPTER 1

Introduction

# Introduction

This volume contains fares and ticket information for buses in regional Victoria. It does not include metropolitan fares, V/Line fares or fares for major regional town bus services, which are included in the main Victorian Fares and Ticketing Manual.

Conditions of travel on regional bus services, including concessions and free travel arrangements, are also detailed in the Victorian Fares and Ticketing Manual. Concessions and free travel arrangements have been standardised across all operators, including regional bus operators.

The contents of this volume set out ticket conditions and fares which have been determined or approved by the Director of Public Transport for regional bus services. This includes privately-funded services that do not receive a government subsidy, but whose fares are approved by the Director.

This volume takes effect from, and including, January 2009.

Public transport operators must make a copy of this manual available for inspection at their principal office. This document may be downloaded from [metlinkmelbourne.com.au](http://metlinkmelbourne.com.au)

This document is regularly updated to reflect changes to fares and services. Care should be taken to ensure that the most recent version is being used. The document should be read in conjunction with any updates that have been issued.

## CHAPTER 2

Fares and ticketing changes  
in Regional Victoria

# Fares and ticketing changes in Regional Victoria

## Fares alignment and integration

Fares in regional Victoria are being progressively aligned and integrated. This will provide opportunities for future fares integration. Ticket types will also be progressively standardised across operators. These changes will happen over several years to ensure that customers can easily get used to the new arrangements.

## Conveyance allowance scheme

The Victorian Government subsidises travel for students in regional areas to their nearest school when travelling more than 4.8km. Full terms and conditions of the scheme are available from schools. In many cases, student pass fares listed in this document are paid for by the State Government via the conveyance allowance scheme. The Conveyance Allowance is administered by the Victorian Department of Education.

## Ticket and form standardisation

From January 2007, the Department of Infrastructure will commence phasing in a common design for punch paper tickets on regional buses that do not use electronic ticketing equipment. Operators with electronic ticketing equipment will not be affected by this change.

Application forms for regional buses will also be standardised for student passes and refunds.

This consistency will provide benefits such as:

- Fares information for all services to be included online as part of the Viclink website
- Application forms for all services can to be available from the Viclink website
- Improved audit and reconciliation
- Information can be presented to customers in an integrated manner
- High quality information, including brochures and in-bus signage, can be produced that is relevant to multiple operators
- Improved audit and reconciliation

# CHAPTER 3

Ticket conditions

# Ticket conditions

Ticket conditions in regional Victoria are being progressively aligned. Where a ticket type is mentioned in this document, the following rules apply unless an exception is stated. Tickets are only valid on the services of the operator who issued the ticket. Not all ticket types are available on all services.

## Single

A single ticket allows travel between an origin and a destination for which a fare has been paid.

## 2 Hour

A 2 hour ticket allows unlimited travel on bus services for at least two hours. The ticket expires two hours from the next full hour after it was purchased. For example, a ticket purchased at 8.55am will expire at 11.00 am and a ticket purchased at 9.05 am will expire at 12.00 noon. Tickets purchased after 6.00 pm are valid until 3.00 am. A passenger may transfer to any local bus or train service before their ticket expires, even if the journey extends beyond the ticket's expiry time.

## Daily

A Daily ticket allows unlimited travel on nominated bus services on the day of issue until 3.00am the next day.

## Weekly

Weekly tickets allow unlimited travel between the origin and destination printed on the ticket for seven consecutive days.

The ticket expires seven days from the start date printed on the ticket. For example, a ticket valid from Tuesday will expire at the end of services for the following Monday (3.00 am on Tuesday).

A weekly ticket used between midnight and 3.00 am must be valid for the previous day.

## Monthly

Monthly tickets allow unlimited travel between the origin and destination printed on the ticket, for a month.

The ticket expires one month from the start date printed on the ticket. For example, a ticket valid for travel from 15 June will expire at the end of services for 14 July (3.00 am on 15 July). A ticket first valid for travel on 30 or 31 January or on 1 February will expire on 29 February in a leap year, or on 28 February otherwise.

A monthly ticket used between midnight and 3am must be valid for the previous day.

## Student Passes

Unless otherwise noted, student passes are only valid on school days, for travel to and from school. Where noted, student passes are also valid on other services.

# Charging Schedule for School Bus

The fares are used by the Dept of Education for students who are ineligible for free bus travel but still wish to access country contract school buses.

(i.e. these fares are for travel by students or adults who are not eligible for free travel on free school bus services). We (DoT) set the fares and they (DEECD) collect them.
